Technology: For all?

#ConstructiveConversations

ENGINEERS UK
WITHOUT BORDERS
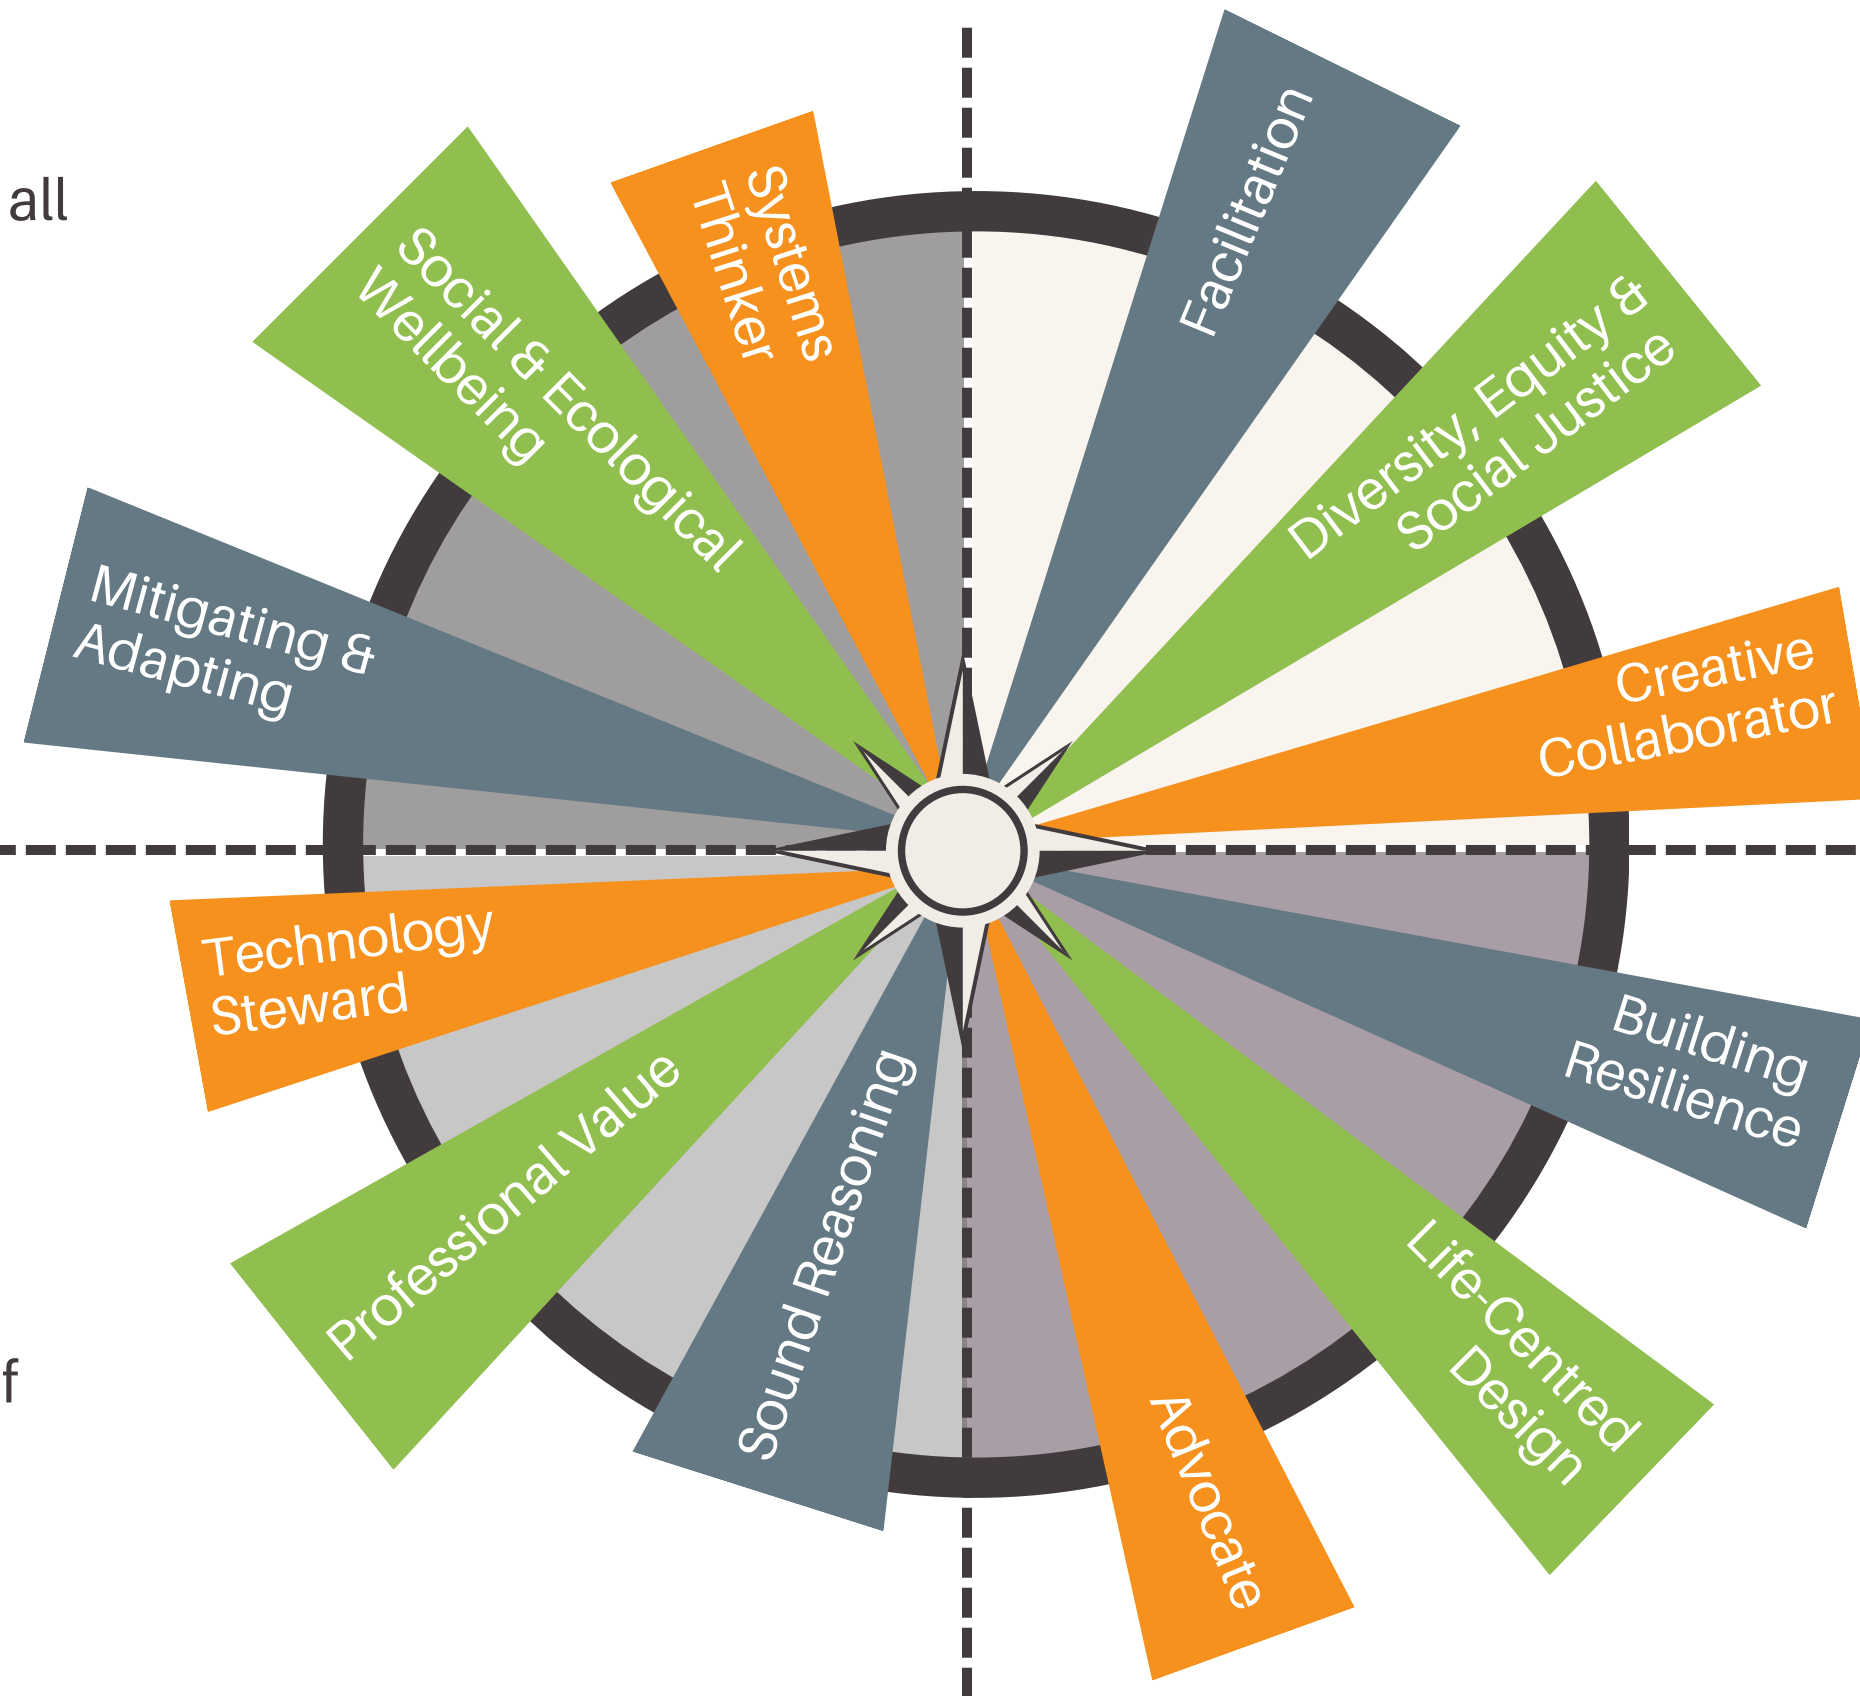

With thanks to our partner
Jacobs

Introducing the Global Responsibility Competency Compass
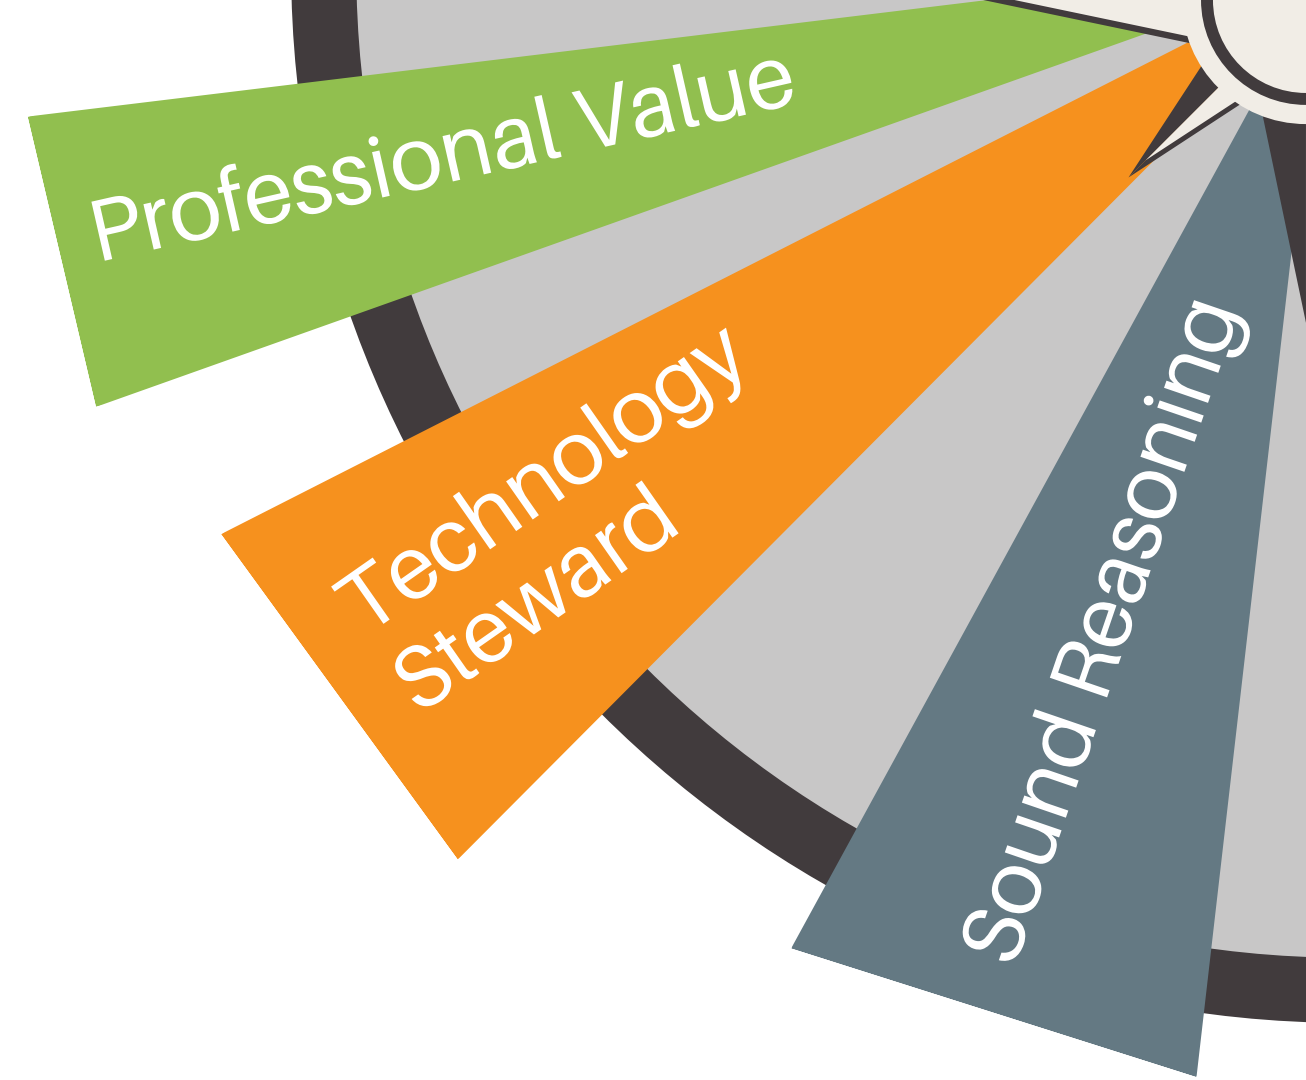

Regenerative
To maximise the ability of all living systems to achieve and maintain a healthier state and naturally co-evolve.

Inclusive
To ensure diverse viewpoints and knowledge are included and respected in the engineering process and outcomes.

Responsible
To meet the needs of all people within the limits of our planet.

Purposeful
To shape outcomes to be equitable and ethical throughout engineering and the life cycle of any project.

Systems Thinker

Facilitation

Social & Ecological Wellbeing

Diversity, Equity & Social Justice

Mitigating & Adapting

Creative Collaborator

Technology Steward

Building Resilience

Professional Value

Sound Reasoning

Advocate

Life-Centred Design

Technology steward

As a technology steward you **shape technology to benefit all.** Demonstrates ability to navigate complex relationships and inherent tensions to ensure sustainable and equitable results.

Where can you learn more?

Head to our **Learning Library** to explore a curated bank of practical learning

techstewardship

Join the Tech Stewardship Practice Programme

Registration closes Wednesday 15 November
